To Whom it May Concern,

Re: Corporate Staffing Recruitment Services

I am writing to recommend the recruitment services of Corporate Staffing. I have been using them as our HR consultancy to fill the middle to top level management in our 2 companies (GemSuites and GemInvest).

Having recruited employees for quite some time, I can say that engaging Corporate Staffing has been completely satisfying. They have provided us the opportunity to avoid costly time interviewing applicants who were not qualified for the positions we had available. They are very professional, quick on their responses to questions and their screening of the employees was also excellent.

I highly recommend Corporate Staffing to anyone seeking a professional and quality staffing service that provides quality employees.

Sincerely,

Fiona Crow
